Summary

Full Stack Web Developer skilled in the MERN stack with real-world experience building responsive and scalable web apps. Delivered 3+ full-stack projects, including a real-time multiplayer quiz app and AI-integrated resume builder. Proficient in MERN Stack, RESTful APIs, real-time applications, and AI integration. Seeking Full Stack Web Development internship to build scalable, production-ready products.

Experience

- **Front-End Web Development Intern (6 weeks) | AICTE & Edunet Foundation** *August '25*
 - Developed responsive web applications using modern frontend technologies.
 - Collaborated in a team environment following agile practices.

Skills

- **Frontend Development:** HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS
- **Backend Development:** Node.js, Express.js, RESTful APIs
- **Database Management:** MongoDB, MySQL
- **Full-Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Programming Languages:** C, C++, Java (Basic Fundamentals), Python for Data Science & AI Integration
- **Data Structures & Algorithms:** Proficient in problem-solving and optimization.
- **Tools/Platforms:** Git, GitHub, RESTful APIs, WebSocket, Socket.io
- **Others:** Authentication (Passport.js, Clerk), Strapi CMS, Gemini API.

Education

- Computer Engineering | LDRP Institute of Technology , Gandhinagar *CGPA : 8.16 | (Jul'23 - June'27)*
- XII Science (CBSE) | Sarvodaya Secondary School , Pal *81% | 2023*

Projects

- **WanderStay - Global home-sharing and rental platform** | <https://wanderstay-project-jcnv.onrender.com>
 - Developed a scalable rental platform using MERN stack handling property search, booking, and secure authentication for 100+ simulated users.
 - Engineered RESTful APIs with Node.js & Express.js, reducing response time by 40% through efficient MongoDB indexing.
 - Implemented responsive UI with Tailwind & Bootstrap.

- **QuizFight - Real-Time Multiplayer Quiz Platform**

- Built real-time multiplayer quiz platform using Socket.IO supporting 50+ concurrent users with live leaderboards.
- Designed WebSocket architecture ensuring <100ms latency for seamless gameplay.

- **AI - Powered Resume Builder** | <https://github.com/brijeshrakholiya17/ai-resume-builder-project>

- Developed AI-integrated MERN application using Gemini API that auto-generates resume content saving 70% manual effort
- Implemented Clerk authentication + Strapi CMS with form validation (min. 2 projects & 2 experiences)
- Deployed full-stack app with Git & GitHub for version control
- Integrated Gemini API for intelligent content generation, demonstrating practical GenAI application in web development

Certifications

- Full Stack Web Development Course - Delta 3.0 | Apna College **March '24**
- Python for Data Science (4-Week Course) – NPTEL **July '25**

Achievements and Highlights

- Built 3+ end-to-end full stack projects and hosted portfolio site.
- Solved 50+ DSA problems on platforms like LeetCode.
- Currently building DevOps & MLOps pipelines (Docker, Kubernetes, Terraform, GitHub Actions) to productionize MERN applications
